Phone (303) 790-4830, Fax (303)790-9364

---

**Timeline/Schedule**

After the initial submittal is made, review comments will be returned, outlining the necessary components for the Applicant to supply with the next submittal. Submittal review comment letters will be issued within 10 business days for each occurrence. This process will continue until all documents have been reviewed and approved. Quality and adherence to the information requested will aid the Applicant in a timely review process.

Once all documents have been accepted, a request for final documents will be submitted. Applicants are encouraged to review all ACWWA standard forms early on when they are issued with the initial submittal review comment letter. The Applicant's completion of these forms along with initiating the Letter of Credit/Financial Guarantee (if applicable to the specific project) and aligning the Tap Fee payment will aid in a timely approval process. ACWWA requires the Tap Fees be paid in full prior to final plan approval and construction permit.

Once final documents have been submitted and approved, the Applicant will be allowed to schedule a pre-construction meeting with ACWWA's Inspections team.
